Solicitation Type and Name: **Request for Competitive Sealed Proposals – Annual Contract for Electronic Medical Records Replacement System**

Solicitation Number: RFCSP 26-004; RFx 6100019340

Description: San Antonio Metro Health (Metro Health) is requesting proposals from respondents for an Electronic Medical Records (EMR) software replacement that would reduce duplication of efforts, streamline reporting and eliminate workarounds. The new system would provide efficient forms and templates for staff in the Metro Health, each tailored to the needs of the specific program/clinic/role, allowing for staff to successfully interact with the patient and gather data simultaneously. Patients/clients would have access to a public portal to create and manage their appointments, as well as view their test results. The system would support reporting and trend analysis, providing clinicians a way to oversee patient treatment at a glance. The new EMR would integrate with electronic prescription ordering, the Laboratory Information Management System, StarLIMS, and the State immunizations registry, ImmTrac2. The new system should comply with Texas Department of State Health Services current reporting requirements and HIPAA. It should include a billing component with financial reporting and insurance coding.

Applicable Product Categories: 92007 - Applications Software for Microcomputer Systems
95882 - Records Management Services, Including Document
Management Services and Technology Integration
92024 - Data Conversion Services
