Construction Manager at Risk

Ella Austin Community Center Renovation

RFQ: 2024-53 | WBS: 23-04035

I. BACKGROUND

The City of San Antonio (City) Public Works Department is seeking an experienced Construction Manager at Risk (CMAR) firm (Respondent) with demonstrated technical capabilities and architecture construction experience to provide Pre-Construction and Construction services for the **Ella Austin Community Center** Project. The CMAR firm will be integrated into a city-led team as part of a progressive Construction Manager at Risk delivery method. The operational complexity of these projects will require the CMAR to provide specific expertise and specialty technical services for the project to be successful.

This Request for Qualifications (hereafter referred to as “RFQ”) is the first of a two-phase solicitation process. Through the first phase of the solicitation process, the City anticipates shortlisting up to five (5) CMAR firms that submit responses to this RFQ. The City reserves the right to shortlist fewer teams, depending on qualifications and the number of submittals. Only the shortlisted Respondents will be eligible to participate in the second phase of the solicitation process, which will be initiated by the City’s issuance of a request for proposals (RFP) and may include other procurement-related activities as will be described in the RFP.

The City is subject to the City of San Antonio Small Business Economic Development Advocacy (SBEDA) Program. Competitive bidding of work packages is required.

II. SCOPE OF WORK, PROJECT OBJECTIVES, AND GENERAL REQUIREMENTS

The City anticipates that the Ella Austin Community Center Project will include components including building and site development necessary to facilitate operation of the Ella Austin Community Center, including:

<ul style="list-style-type: none"> Demolition of several buildings on campus 	<ul style="list-style-type: none"> Renovation of the existing 2 story 39,894 SF main building 	<ul style="list-style-type: none"> New 4,600 SF Senior Center
<ul style="list-style-type: none"> Partial renovation of the Gymnasium 	<ul style="list-style-type: none"> New parking lot 	<ul style="list-style-type: none"> Upgrade of existing parking lot
<ul style="list-style-type: none"> New drop off driveway 	<ul style="list-style-type: none"> New central courtyard area with shade structures 	<ul style="list-style-type: none"> New playground area
<ul style="list-style-type: none"> Relocate Community Garden 	<ul style="list-style-type: none"> Utilities upgrade 	

In May 2017, voters approved the 2012-2027 Bond Program, which authorized \$23 Million for renovation of the Ella Austin Community Center Campus. Additional funding of \$11.5 Million will be leveraged from the Inner-City Tax Increment Reinvestment Zone (TIRZ) for a total project budget of \$23 Million. The City of San Antonio selected West East Design to perform a facility assessment and a highest and best use analysis of the Ella Austin Community Campus located in the Digniwity Hill neighborhood on the City’s Eastside. This project consists of the demolition and abatement of several existing buildings on the campus, full renovation of the 2 story, 39,894 sf main building, cosmetic renovation of the auditorium, partial renovation of the existing gymnasium, and the construction of a new approximately 4,600 sf Senior Center building. Site development is to include new parking lot, upgrade and modifications to the existing parking lot, new vehicular drop off, new central courtyard area including shade structures and new playground, and relocation of the community garden. Specific sustainability measures which may be considered include, EV stations, energy efficiency in mechanical and electrical systems, and the like.

The CMAR will assume the risk of delivering the Project within a Guaranteed Maximum Price (GMP). The CMAR will enter into a CMAR Contract to provide preconstruction services throughout the design development of the Ella Austin Community Center after which the CMAR will negotiate GMP packages for construction.

The CMAR will be responsible for construction means and methods and will collaborate with the City to publicly advertise and solicit competitive bids or proposals from trade contractors or subcontractors for the performance of all elements of the work other than the minor

work that may be included in CMAR Contract general conditions. The CMAR will be required to coordinate closely with any firms procured separately by the City to deliver components of the above listed projects or other separate projects.

During the pre-construction period, which includes the design development, construction documents preparation, procurement and permitting, the CMAR will work with the Public Works Department to provide construction cost modeling of the Project, including but not limited to, updates at major milestones of design; scheduling of all aspects of the Project, including City tasks and outside agencies; constructability reviews; weekly cost trend log updates; and cost savings/value engineering recommendations. The CMAR will support the City in establishing a final construction budget for the Project. The CMAR and Design Consultant will then work collaboratively throughout the remaining design and preconstruction period to ensure that the Project remains within the budget and will regularly report back to the Public Works Department.

The CMAR will be responsible for quality control and the Public Works Department team will be responsible for quality control oversight.
