AGENDA ITEM NO. \_\_\_\_\_

**TO:** Mayor and City Council

**FROM:** Thomas G. Wendorf, P.E., Director of Public Works

**SUBJECT:** Micro-Surface- 2004 Street Maintenance

**DATE:** March 4, 2004

**SUMMARY AND RECOMMENDATIONS**

This ordinance accepts the low responsive bid and awards a Street Maintenance Improvements funded construction contract in the amount of \$1,118,322.50 payable to Clark Construction of Texas, Ltd. a non-MBE, authorizes \$55,916.13 for miscellaneous construction contingency expenses, \$750.00 payable for advertising expenses, \$500.00 for printing and reproduction expenses, \$22,366.45 for consultant material testing, and \$53,476.19 for reimbursement of City Forces for traffic markings, Video Image Vehicle Detection System (VIVDS) and other traffic improvements for a total amount of \$1,251,331.27 in connection with the Micro-Surface - 2004 Street Maintenance project located in various City Council Districts.

Staff recommends this ordinance become effective immediately upon the receipt of eight (8) or more affirmative votes.

Staff recommends approval of this ordinance.

**BACKGROUND INFORMATION**

The Micro-Surface- 2004 Street Maintenance project consists of applying a micro-surface treatment to the selected streets to provide smoother and safer vehicle-riding surfaces as well as to extend the life of the streets by an average of seven (7) years. The streets included in this project were identified through coordination with each affected Council District and will include 30.03 Lane Miles of treatment. Attachment 1 identifies specific streets and the Council District in which each is located. As in previous years, the goal is to have all street maintenance projects completed by the end of the current fiscal year. To achieve this goal, it is necessary to have this contract effective immediately so that mobilization can occur at once to capitalize on favorable springtime weather conditions.

This project includes \$33,988.50 for the installation Video Imaging Vehicle Detection System (VIVDS) by City forces for six (6) intersections. VIVDS replaces traditional in-

pavement loop detectors for vehicle detection for affected intersections. Loop detectors sense a vehicle by magnetic inductance loops cut into the pavement, whereas VIVDS detects oncoming traffic by working similarly to motion detectors. The VIVDS electronically varies the green intervals of a traffic signal based on traffic demand. The use of VIVDS is cost effective in lengthening the life of street surfaces by reducing deterioration caused by saw-cutting and will be in compliance with the Right of Way Management Ordinance.

This project was advertised for construction bids in the Commercial Recorder, the San Antonio Informer, and La Prensa in December 2003. In addition, the announcement was made on TVSA-21, through the SBEDA office and Dodge Report. Plans were also available for review by potential bidders in the Public Works Office.

Bids for this project were opened on January 27, 2004, with one (1) bidder responding. The bid is as follows:

<b>CONTRACTOR</b>	<b>BASE BID</b>	<b>SUBSTITUTE ALTERNATE BID</b>
Clark Construction Co.	\$1,118,322.50	\$1,423,710.40

The Economic Development Department has reviewed the list of subcontractors and approved the Good Faith Effort Plan submitted by Clark on the basis that there are a limited number of local M/AA/WBE firms capable of subcontracting in the specialized area of micro-surface treatment. The memorandum from the Economic Development Department is included herein as Attachment 4. The contract provides for one hundred twenty (120) calendar days or approximately four (4) months to complete the project. Clark Construction of Texas Ltd. is in the process of finalizing work under the following 2003 Street Maintenance contracts:

<b>PROJECT</b>	<b>AMOUNT</b>
2003 Micro-Surface Street Maintenance	\$ 1,647,779.60
2003 Slurry Seal Street Maintenance	\$ 1,441,952.89
<b>TOTAL</b>	<b>\$ 3,089,732.49</b>

### **POLICY ANALYSIS**

### **FISCAL IMPACT**

This is a one-time capital improvement expenditure. Funds in the amount of \$1,251,331.27 are available from the Street Maintenance and Improvement fund to be authorized payable as follows:
