SUBJECT: School Zone Pager Units

DATE: May 6, 2004

SUMMARY & RECOMMENDATION:

This ordinance authorizes the Purchasing & General Services Department to accept the bid submitted by Consolidated Traffic Controls, Inc. to provide the City of San Antonio Public Works Department Traffic Division with pager units to be used at school zone flashers throughout the City. Staff recommends approval of this ordinance.

BACKGROUND INFORMATION:

Submitted for council consideration and action is an ordinance accepting the bid from Consolidated Traffic Controls, Inc. to provide the City of San Antonio Public Works Department Traffic Division with pager units for use in the existing School Flasher Pager System. These items are critical for remote time switch programming and communication control to control school zone flashers. The need for compatibility and workability with existing software and equipment within the School Flasher Pager System warranted a sole source purchase. As such, a request for offer was issued to secure a contract that will allow the City to continue effective programming and communications with the existing system.

POLICY ANALYSIS:

This contract will provide the San Antonio Public Works Department Traffic Division with school zone flasher pagers that will be used for notifying motorists of approaching school zones. These devices will be used at new school zone flasher locations throughout the City and will be incorporated into the existing system which allows for remote time switch equipment programming.

FINANCIAL IMPACT:

The total cost of this contract is \$27,300.00. The funding will be from the General Fund. All expenditures will be in accordance with the FY2003-2004 Budget approved by City Council.

COORDINATION:

This ordinance has been coordinated with the City of San Antonio Public Works Department.

Janie B. Cantu, C.P.M., Director
