In my three years in high School I have been very involved in Student Council, helping to organize student lead projects such as Fundraisers for underprivileged schools. I was president of my class for two years, and am currently student body vice-president. This past year I formed a speech team, that has made three trips to the City Council Chambers to speak. I spend many additional hours at school working in the student store, which I manage. I am also an active member of the school newspaper, and literary magazine. For the past year I have also said daily announcements, informing the student body of upcoming events.

Community Involvement: List civic, religious or other community organizations or activities that you are currently involved in or have been involved in the past. Indicate office, committee or leadership positions. Include affiliations other than San Antonio as appropriate. (Be specific.)

For the past three years I have been a lector at my Parish. I am very active in the Church youth group, having helped coordinate retreats, and several dramatic interpretations. This past year I began teaching religious education to 7th graders every Sunday morning. In regards to committees, I serve on my church's Pastoral Council, which with the Pastor, makes administrative decisions. I am also on the Parish Jubilee Committee, which coordinates all activities pertaining to the celebration of St. Paul's 50th anniversary as a parish. Within the past two years, I have also served as a judge for a middle school science fair, and on a different occasion, a history fair.

Name: Joshua L. Sandoz

Awards: List personal awards, special recognition and honors that you have received.

In 2001 I was recognized by the VFW Harlandale memorial post as an "Outstanding Young Volunteer of the Year" For my Community Service. I have also won numerous oratorical contests, just a few of which were, 2nd place Original Oratory TAPPS State, 3rd place UTSA Gray matters debate 1st place VFW "Voice of Democracy", and 1st place original oratory TAPPS district. I have earned "Honor Roll" status every quarter since Freshman year. This year I have been nominated for a Young leadership award, and a Humanities/Social Science award, both of which are still pending.

List those goals you most wish to accomplish immediately after graduating from high school or within the next four (4) years. (Be specific.)

Within four years after my graduation, I wish not only to be a Full time student, but I also want to actively participate in my community. I would like to become more involved in municipal government, not only to voice my opinion, but also to gain an idea of how the system works. I could see myself working as an intern for an elected official. In addition to this I would greatly enjoy spending more time working for local charities. A shelter or local orphanage would be a worthwhile opportunity for me to help less fortunate individuals. However most of all, the 4 years after my High School Graduation should reflect my desire to make a difference not just in the community but also in the lives of those around me. I hope to do all this and more, in both words and actions.

Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address? What approach would you take? Who would you work with? Why this particular issue? (Be specific)

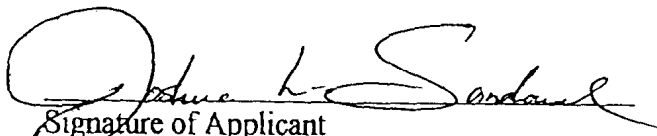

In my opinion one of the most significant yet overlooked issue pertaining to our youth is that of voter registration. Although many youth are too young to vote, there are just as many that can vote, and it is also never too early to start garnering awareness among youth about the importance of voting. Granted there are indeed numerous issues that others may feel are much more important, however it is through voting that we begin to address these other issues. Voting is a basic right and it is up to us to exercise it.

Before I would take any definitive action, I would work to raise awareness on this issue. I would try to tell youth of the power they possess with this basic right. Before any specific programs are initiated, it would be best to embark on an extensive information campaign, so that those who will be eligible to vote in a few years would realize its importance. In addition to working in cooperation with City Hall, I believe that it would be a good idea to work with local High Schools. Students would not only get the opportunity to learn about government in the class, but also get the chance to participate actively. I would choose this particular issue because of all the possible benefits youth could extrapolate from this experience, it would be a great way to get our youth involved in making some of the decisions that affect them daily.

Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address? What approach would you take? Who would you work with? Why this particular issue? (Be specific)

I am interested in the safety of our high school students. We do not have school zones to slow the cars down. One of my dear friends was hit by a car crossing the street from her high school Stephanie Leigh Rios age 15 a young beautiful vibrant girl taken away too soon. We need to punish these people who think they can get away with it there needs to be school zones at every school in the city to ensure the safety of our kids. I would like to work with every school board in the city in raising money to put up school zones so our city can ^{have} much more safer place for every kid in the city.
