

**CITY OF SAN ANTONIO
PURCHASING & GENERAL SERVICES DEPARTMENT
CITY COUNCIL AGENDA MEMORANDUM**

CONSENT AGENDA

ITEM NO. 6

TO: Mayor and City Council

FROM: Janie B. Cantu, Director of Purchasing & General Services

SUBJECT: Tractor Trailer Combination Units

DATE: February 9, 2006

SUMMARY & RECOMMENDATION

This ordinance authorizes the Purchasing & General Services Department to accept the low bid submitted by Grande Truck Center, Bid No. 2, to provide the City of San Antonio Public Works Department with nine replacement tractor trailer combination units for a total of \$919,611.00 from the Equipment Renewal and Replacement Fund. Staff recommends approval of this ordinance.

BACKGROUND INFORMATION

A request for sealed bids was issued to purchase 9 replacement tractor trailer combination units for the City of San Antonio Public Works Department Storm Water Operations Division. A total of six bids were received. The low bid was submitted by Grande Truck Center for a total of \$919,611.00. This bid was advertised in the Daily Commercial Recorder, La Prensa, the San Antonio Observer, the City of San Antonio Purchasing Website, Public Access Channel 21 and Demandstar.com.

As part of the Public Works Department vehicle and heavy equipment reconfiguration plan, the tractor trailer combination units will replace seven (7) 7 cubic yard dump trucks, ten (10) 10 cubic yard dump trucks and five (5) 16 cubic yard sludge trailers that are currently in the City's Vehicle Replacement Program. The new units will be utilized for multi-purpose applications such as removing construction materials, brush, mud, as well as other types of debris from various drainage construction sites and disposal areas. The new units will also allow for larger capacity of debris to be collected at a time, up to 26 cubic yards, eliminating the need for frequent trips to the landfill. In contrast, current equipment is limited to single applications with the capacity to collect only up to 16 cubic yards at one time. The ability to make fewer trips to the landfill will not only allow City staff to be more productive in completing projects, but it will also cut expenses in labor hours as well as the wear and tear to each tractor trailer combination unit. The retired units are 1997 and 1998 models and will be sold at the San Antonio Auto Auction.

Additionally, the tractors are covered by a one-year basic vehicle warranty on parts and labor with an extended two-year warranty for the engine and drivetrain components; three-year warranty on the transmission; five-year warranty on the cab structure; five-year warranty for the frame rails and cross members; and a three-year warranty for the trailer.

POLICY ANALYSIS:

This contract will provide the City of San Antonio Public Works Department with nine (9) tractor trailer combination units. These tractor trailer combination units are an important component to Public Works' ability in maintaining cost efficient operations through the use of multi-functional equipment. The successful vendor is required to provide two on-site training sessions for a minimum of four (4) hours each to demonstrate the safe operation of the entire system.

FINANCIAL IMPACT:

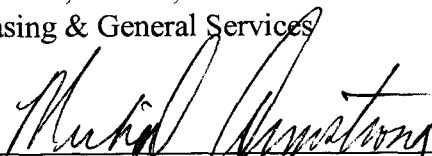

The total cost of this contract is \$919,611.00. Funding will be from the Equipment Renewal and Replacement Fund. All expenditures will be in accordance with the FY2005-2006 Budget approved by City Council.

COORDINATION:

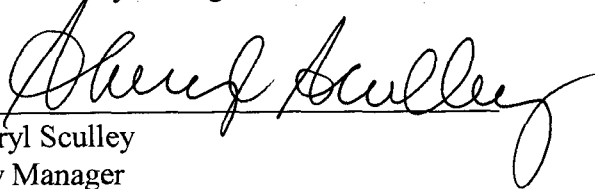

This item has been coordinated with the City of San Antonio Public Works Department.

Janie Cantu, C.P.M., Director
